

Student Assistant for Preparing the Lecture and Exercises “Introduction to Programming”

Within this work, the student will support the lecture and exercise “Introduction to Programming”.

Job description

- Translate slides, exercises and further material from German into clear, didactically appropriate English
- Ensure technical accuracy and consistency of terminology
- Adapt explanations and examples for an English-speaking student audience
- Prepare material in Latex
- Support exercises and teaching

Your profile

- Excellent English skills, especially in technical contexts
- Strong German skills to understand the source material
- Solid knowledge of Java (introductory level or higher)
- Highly motivated and excellent organizational skills
- Reliable and self-organized work style
- Experience in LaTeX and/or PowerPoint

Our offer:

- Start date: as soon as possible
- Flexible working hours
- 7-13 hours per week
- Payment will be made according to the remuneration rates of part-time student assistants

If you are interested in the position, please send you CV, transcript of records, and two sentences about your motivation by e-mail to Martina Mairgünther (martina.mairguenther@uni-bayreuth.de) using the subject “Student Assistant for the Introduction to Programming”.
